

FUNDAMENTALS OF PROJECT MANAGEMENT FOR EFFECTIVE & SUCCESSFUL IMPLEMENTATION

Learning about project management essentials

Course Overview:

This course will provide learners with an overview of project management essentials, focusing on project execution, planning, progress tracking, risk management, stakeholder communication, resource allocation and project monitoring.

By the end of this course, learners will be able to execute project modules and implement project plans, demonstrating a solid understanding of project objectives and scope. They will also be able to apply suitable methods and tools for tracking project progress while identifying and managing risks to ensure project success, cooperate and communicate with both internal and external stakeholders involved in the projects, allocate resources strategically across project components for optimal and successful completion, and monitor project deliverables, schedules, costs, timescales and resources while implementing corrective actions to address discrepancies.

Key Topics:

- Introduction to Project Management
- Project Execution and Implementation
- Progress Tracking and Risk Management
- Stakeholder Communication and Cooperation
- Strategic Resource Allocation
- Project Monitoring and Control

Who should attend:

The occupations that this unit would be relevant to include but not limited to:

- New and experienced professionals
- Managers and executives (PMEs) within the manufacturing and service-related industries
