

CONSASS

INTERNAL AUDITOR COURSE

Understand ConSASS elements

Course Overview:

The Construction Safety Audit Scoring System (ConSASS) is an audit assessment tool comprising of an audit checklist and score card developed for Construction companies to provide an independent assessment of the safety and health management system at a worksite, and to evaluate the effectiveness and development status of the worksite's safety and health management system.

All construction sites with contracts valued above \$30 million are required to conduct ConSASS audit. In this course, we will discuss how ConSASS is conducted, the banding system and how we can improve our Safety Management System using ConSASS.

From 1 October 2021 onwards, the new ConSASS checklist shall be used.

Key Topics:

- Safety audit as a proactive tool
- Use of PDCA for safety management system
- Overview on ConSASS
- New ConSASS criteria and the banding system W.E.F 1 October 2021
- Understanding the score card
- How to achieve Band III?
- How to conduct ConSASS audit?

The course will familiarize you with all the elements of ConSASS, the different bands and the scoring system.

Who should attend:

Project Managers, Engineers, WSHOs, WSH Coordinators or staff involved in safety awards who wish to understand ConSASS or to prepare their workplace for the audit.
