

WSQ ISO 22001 IA COURSE FOR FOOD SAFETY MANAGEMENT

Understand Food Safety compliance system

Course Overview:

The objective of this course is designed to equip learners with the essential knowledge and practical skills needed to implement and audit food safety management systems based on ISO 22001 standards.

Key topics:

Get Started on ISO 22001 Food Safety Management System

Participants will gain foundational knowledge of ISO 22001 Food Safety Management Systems, including Good Manufacturing Practices (GMPs), HACCP principles, food safety hazard identification, and HACCP system design for food manufacturing environments.

Effectiveness of ISO 22001 Food Safety Management System

Learners will understand how to establish critical limits, identify critical control points, evaluate monitoring effectiveness, and implement control procedures to manage food safety hazards effectively according to HACCP principles.

ISO 22001 Food Safety Management System Monitoring

The course also covers effective monitoring of food safety control measures, identification of non-conformances, and implementation of appropriate corrective and preventive actions to ensure continuous compliance and improvement of food safety systems.

Who should attend:

- Food Safety Managers
- Quality Assurance & QC Professionals
- Internal Auditors
- Food Manufacturing & Processing Personnel
- Professionals involved in food safety compliance and risk management
